EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

Cancel claims 7-12.

This application is in condition for allowance except for the presence of claims 7-12 directed to an invention of non-elected without traverse. Accordingly, claims 7-12 been cancelled.

3. Claims 1, 2, 4-6 are allowed.

4. The following is an examiner's statement of reasons for allowance: Regarding claim 1, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all claimed limitations which include an ultra-lightweight electromagnetic wave concentrator comprising a thin film curved body that has a reflective surface that assumes the surface shape that is part of a paraboloid of revolution or of a curved surface modeling the same, wherein a reinforcing groove structure is molded in said reflective surface as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
